Greetings!

Unilever is one of the largest FMCG companies with very aggressive business growth ambition in a Developing & Emerging Market like Malaysia. It has more than 160,000 employees globally operating in more than 170 countries in the world.

Unilever is also considered as a leading company in the area of talent development and it has been known in the industry as a sound training ground for young Malaysian graduates.

**Unilever Future Leaders Program**, the global management trainee program of Unilever gives you the best choice to develop yourself as a business leader of the future with a difference that enables you to make a positive impact on the world around you. You will experience a world class development road map with real job from day 1, rotation to different business units, and international exposure.

Aspirants of the program will go through a rigorous screening process from paper screening to interviews with senior managers followed by a comprehensive assessment.
